DR. HOLM TO HOLD SEMINAR AT LAKE GASTON

Residents of the Lake Country are invited to a free seminar on joint replacement surgery June 21.

Richard Holm, MD, of the Joint Care Center at Halifax Regional will discuss the latest advancements in hip and knee replacements and explain his unique recovery method that reduces pain and allows patients to return to normal activities quickly.

After surgery, patients begin walking. “Friendly walking competition between our patients after surgery results in better outcomes for our patients,” said Holm.

The seminar begins at 5:30 p.m. June 21 at Water’s View Restaurant at 210 Eaton Ferry Road. Complimentary hors d’oeuvres and beverages will be served. To reserve a seat, call 252 535-8757.

Dr. Holm has performed more than 2,000 joint replacement surgeries at the Joint Care Center at Halifax Regional since 2005. He is board certified in orthopedic surgery. A graduate of the University Of Washington School Of Medicine, Dr. Holm completed his surgical residency at the US Naval Hospital in California.
