## HALIFAX REGIONAL ARRANGES FOR ADDITIONAL PARKING DURING CONSTRUCTION

**ROANOKE RAPIDS, NC (October 7, 2011)—Halifax Regional is adding an overflow parking area for the convenience of patients and visitors using outpatient services and Emergency Care Center.**

The construction project has taken up a number of parking spaces in the lot normally used by patients and visitors using the outpatient and Emergency Care Center, so additional spaces have been designated in the first two rows of the main parking lot.

“We recognize this is an inconvenience, although it will be only for a short time to facilitate the construction project” said Will Mahone, president. The overflow parking areas will be identified by a sign.

“We hope that the more physically fit individuals will use the overflow lot, so that there are spaces in the regular lot for individuals with physical challenges,” added Mahone.

The Medical Center’s courtesy van will make frequent stops in the overflow lot to take people to the outpatient or Emergency Care Center entrance.

The additional parking likely will be needed until January.
